Re: Marco\Nidek - Single Source Justification on quote # 241767

Marco Lombart is the exclusive seller/distributor of the Nidek diagnostic product line for the eyecare market in the United States. No other source is authorized to sell, distribute or service these products in the US. These products include, but are not limited to the Nidek Autorefractors, the Nidek RT-6100 automated refractor, Nidek automated lensometers, and the Nidek automated tonometers.

In addition, we are the sole source for the Marco Encore chair & Deluxe stand product as well as the Marco 101 lensometer. These products are manufactured under our direction, then sold and marketed in the US by Marco Lombart.

If you require additional information regarding the full exclusive line of the Nidek product we represent, or other details for your inquiry please let us know.
